## OUR PRODUCTION

The limitless manufacturing capabilities begin with a workforce of 500 skilled professionals operating 3 organized and efficient plants, spanning over 50,000 sqm, dedicated to wood panel, metalwork, and upholstery; ensuring high production rates to meet the diverse needs of our clients. Riadco has a vast network of showrooms across Egypt while distributing globally, guaranteeing utmost dedication to delivering exceptional craftsmanship, innovative designs, and quality.

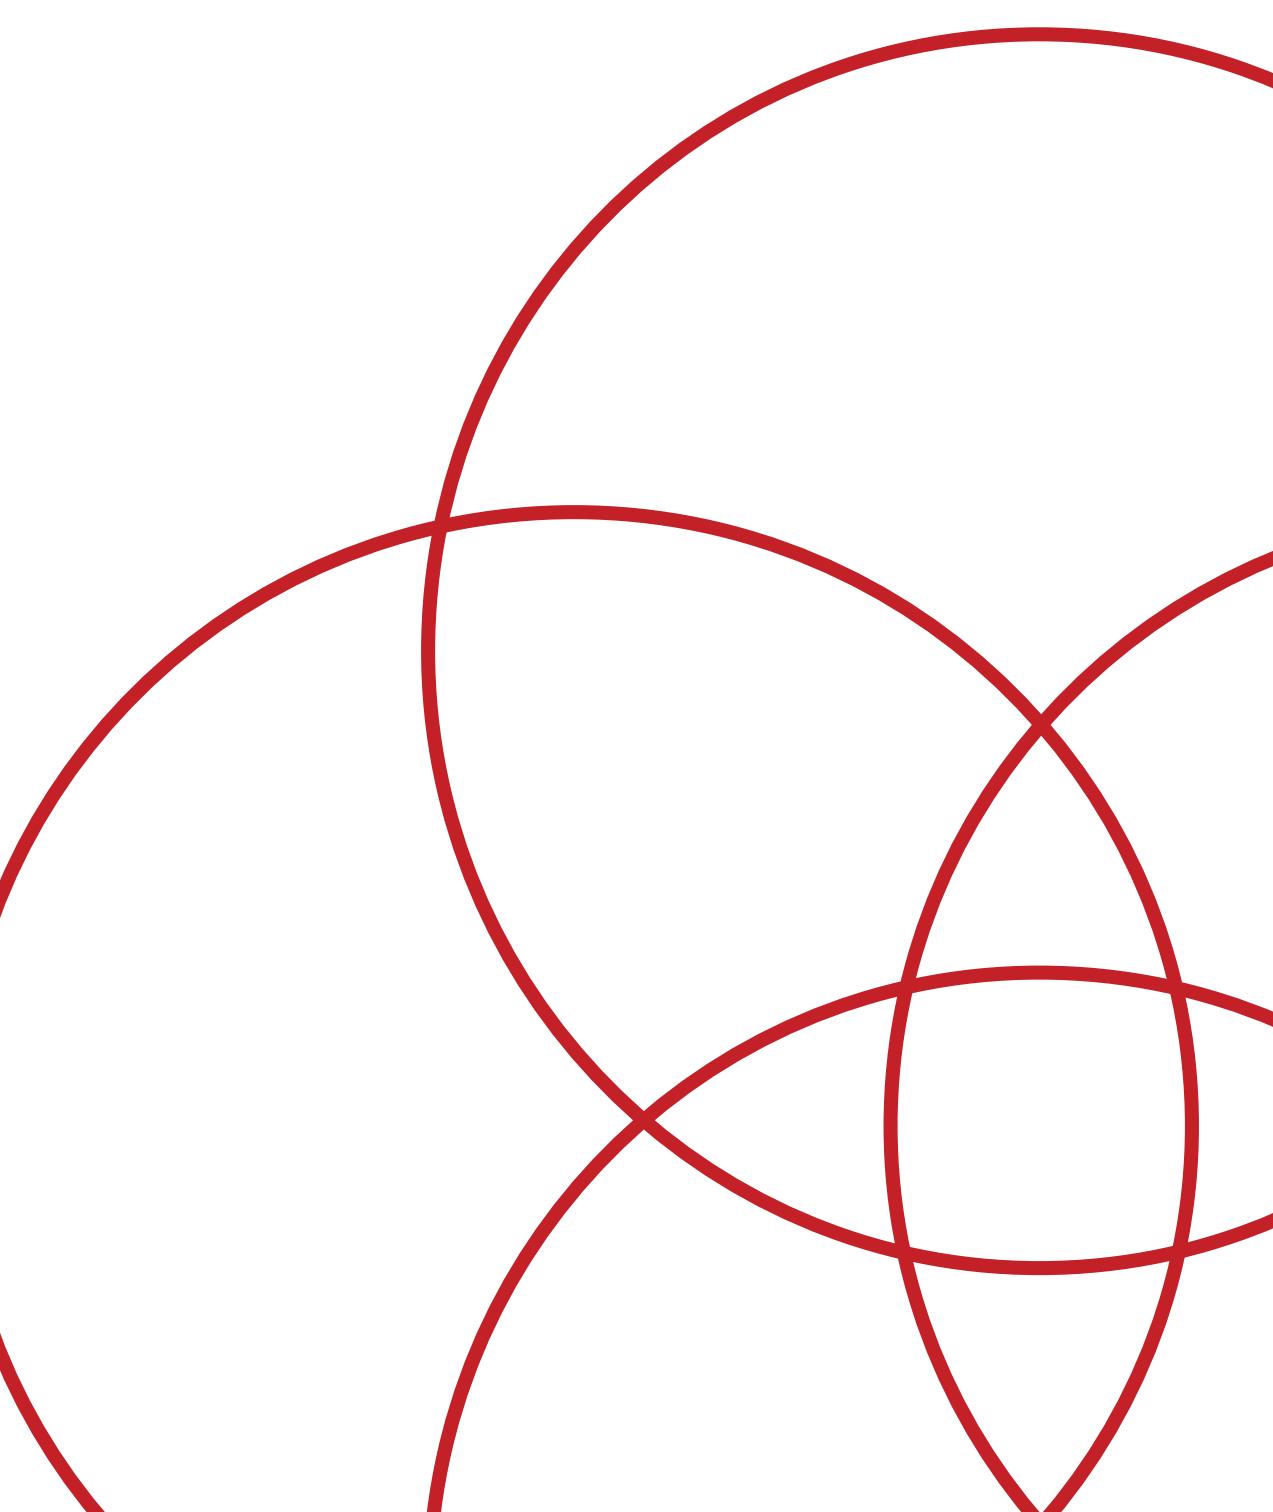

# LEAD

## RANGE

The Lead range offers a sophisticated and refined aesthetic, enhancing interior spaces with its timeless elegance and contemporary flair. Each piece, a masterpiece of design and craftsmanship, is meticulously crafted to endure the test of time. This exclusive collection offers a sophisticated and refined living experience.

# DIAMOND

/LEAD

“

The Diamond collection is a stunning range of executive furniture that redefines the modern workspace. Each piece is meticulously crafted to blend seamlessly with contemporary interiors, offering a perfect balance of style and functionality. The striking contrast between the sleek black and elegant champagne finishes creates a visually stunning and sophisticated aesthetic. The meticulously crafted side unit, available in either finish, offers ample storage and display space.

”

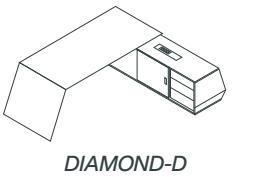

012

The high-gloss finish adds a touch of glamour, while the geometric design elements lend a contemporary edge. The use of premium ebony veneer adds a touch of luxury and sophistication to each piece. Whether you prefer a bold and dramatic look or a more understated elegance, Diamond collection offers the perfect solution for any executive workspace.

013

DIAMOND-D

The desk in the Diamond collection is a masterpiece of modern design, with its clean lines and dramatic angles. The ebony wood veneer creates a visually stunning focal point, while the integrated side unit provides convenient storage and display space.

# MARBLE

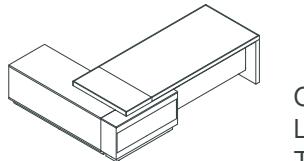

/ LEAD

“

Marble is an elegant executive collection that is crafted from high-quality materials in response to the need for a prestigious and tastefully luxurious office, featuring a thick top made of poplar plywood sandwiched between MDF boards, veneered with thick Ash-tinted oak. The surface is characterized by longitudinal grout lines, giving it a unique slat-like appearance that exudes refinement and sophistication. The desk's design features a standard configuration that includes a box drawer and file drawer. This design ensures ample space to work and organize belongings, while maintaining a sleek and streamlined appearance.

”

MARBIL - D - 260 - T - M - R

One of the standout features of the Marble desk is its distinctive design aesthetic. Marble desk is a sophisticated L-shaped desk that is constructed with a combination of plywood and MDF, veneered with thick Ash-tinted oak. The front panel of the desk showcases a black marble accent, adding a luxurious touch. The design is modern and minimalist, with clean lines and a functional aesthetic.

## SPECIFICATIONS:

**Marble Collection exudes sophistication and luxury, featuring a striking combination of materials and finishes.**

CLO-D-140/160

The Cloud lateral workstation is a versatile and efficient solution for modern workspaces that prioritize collaboration and flexibility. With its sleek and contemporary design, this workstation offers ample workspace for multiple users to work side by side comfortably. The lateral layout of the workstation encourages communication and teamwork among colleagues while providing individual space for focused tasks.

CLO-D-140/160

It is crafted from high-quality materials that ensure durability and longevity. Its ergonomic design promotes good posture and comfort, supporting users during long hours of work. Whether used in open office spaces or collaborative areas, the Cloud lateral workstation combines functionality with a contemporary aesthetic to enhance the overall workspace experience.

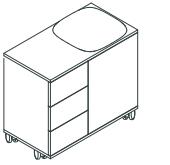

CLO-D-140/160 CLO-SU1-12040

The Cloud workstation is a versatile and modular solution that offers a unique way to customize any workspace. With its triple telescopic rectangular column design, the Cloud can be easily adjusted to different heights and configurations, making it perfect for collaborative work or individual tasks. Additionally, the Cloud has a built-in cable management system, keeping your workspace organized and clutter-free.

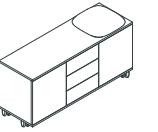

CLO-SU2-7540

The Cloud versatile service unit is a multi-functional piece designed to enhance office productivity. It boasts a spacious work surface, multiple drawers for efficient storage, and a built-in cushioned seat that can be used for additional seating or as a footrest.

CLO-SU1-12040

CLO-SU3-5040

Finished with a stylish combination of a darker top and a lighter base, this unit adds a touch of sophistication to any workspace. Equipped with casters, it moves effortlessly around the office, providing flexibility and convenience for various tasks.

Cloud consists of a desktop, a base, two columns, and two T-legs, designed to provide sturdy and adjustable workstations. The desktop features a soft edge design, while the T-leg base has 10mm of floor compensation to ensure stability.

The two-part column can be adjusted to a height range of 62-127cm, allowing users to customize their working position.

The sit-stand system promotes a healthier work routine by allowing users to change their working position throughout the day, reducing the negative impacts of prolonged sitting.

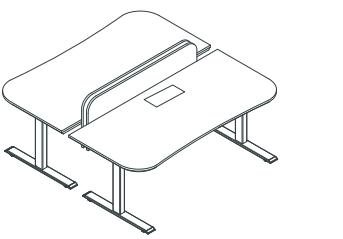

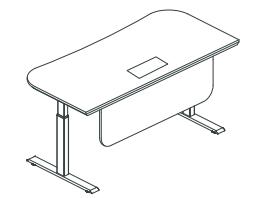

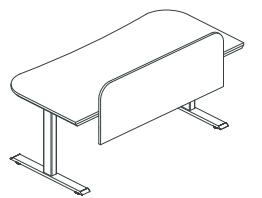

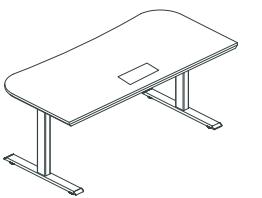

UC-LC1-8080 UC-LCO-8080

Smart storage units complement the Cloud workstations, providing versatile storage solutions for various workplace needs. The high modularity of these units enables complex layouts and configurations, catering to executive or operational environments seamlessly.

# UNIVERSAL CABINETS

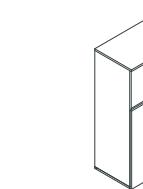

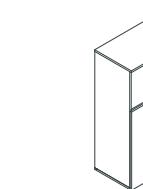

/ OPERATE

“

The Universal Cabinets collection is crafted to address a wide range of storage requirements, allowing for seamless integration into any setting due to its diverse array of finishes. The sleek design of the cabinet doors can be enhanced with optional 18mm finishing panels for the top, bottom, and side components adding a sophisticated touch and creating a distinctive ambiance.

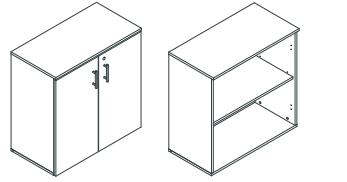

”

UC-MC20-80120    UC-MCO-80120

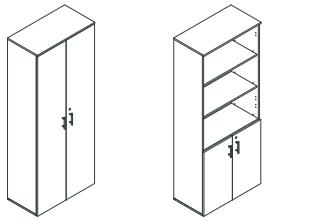

Featuring clean lines and a sleek design, the doors of the Universal Cabinets can be enhanced with optional finishing panels that protrude 18mm, adding an elegant frame that brings character and sophistication to any space.

UC-LC1-8080 UC-LCO-8080

The Universal Cabinets come equipped with hinged doors, offering a versatile modular storage system. They feature a soft-close mechanism and 110° opening angle, which is adjustable on all three axes. Also, these hinges are certified for an up to 80,000 opening and closing cycles, ensuring longevity and resistance to tear.

UC-HC21-8020 UC-HC20-8020

Beyond hinged doors, the collection also includes filing drawers designed with over-extension and heavy-duty rails, which support a weight capacity of up to 50 kg, and feature soft-close mechanisms or internal frames suited for organizing suspended files.

UC-HC21-8020

With four height options and two width choices (400 mm and 800 mm), and a selection from five distinctive handles, each cabinet could be tailored to match various aesthetic preferences and functional requirements.

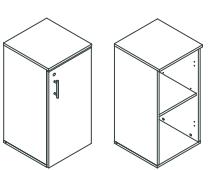

UC-HC1-4020 UC-HCO-4020

Additionally, all doors, including the glass options, feature a standard lock with rotating rods to ensure safe and secure closure. For added security, an optional encrypted locking mechanism is available.

# BJ

The BJ embodies classic elegance and timeless design, making it a perfect addition to any sophisticated workspace. This high/mid back leather chair is upholstered in premium leather, featuring a rich black leather-look finish that adds a touch of luxury. Designed for exceptional comfort, it includes sturdy V-shaped fixed armrests that provide support without compromising the chair's refined lines. The advanced synchro gaslift mechanism allows for smooth height adjustments and any-angle locking, while the synchronised mechanism features five lockable positions to accommodate your preferred seating posture. For further customization, the body weight tension can be easily adjusted using a convenient knob located under the seat. The BJ Chair is supported by a robust 5-star black nylon base with 50mm nylon castors, ensuring both stability and effortless mobility, ideal for those seeking comfort and style throughout their workday.

# ERGOHUMAN ELITE G2

Ergohuman Elite G2 is specifically designed for workers who need a comfortable office chair for intensive use. Its flex zones ensure continuous support for the back and lumbar region, while the adjustable armrests relieve pressure on wrists, arms, and shoulders. Additionally, the height-adjustable pivoting headrest helps reduce neck strain.

Engineered with a dual pivot mechanism that includes recline position locking, seat slide, a forward synchro tilt seat, and seat height adjustment, the Ergohuman Elite G2 also features an automatic lumbar support system with precise tension adjustment, adjustable arms, and an optional headrest. The Elite model can also be upgraded to a Plus version, which includes a recline limiter function and additional aluminium detailing.

# ERGOHUMAN ELITE G2 FEATURES

---

PY52W

PY52-WOP

# PY55

## Specifications :

**Seat/Back Foam :**  
High density PU foam.

**Seat and back cover :**  
Injection molded with multiple composite materials (PP).

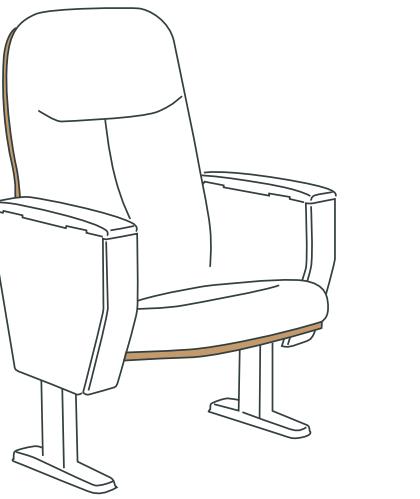

**Seat and back wood :**  
Molded top quality multi-layer plywood after rotating cutting with painting finished

**Fabric :** Polyester.

**Armrest Cover :** Solid Wood or molded PU.

**Lifting mechanism :** By gravity.

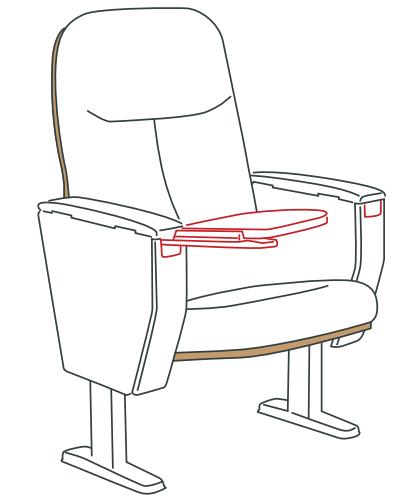

**PY55**

**The Classic Theatre Chair**

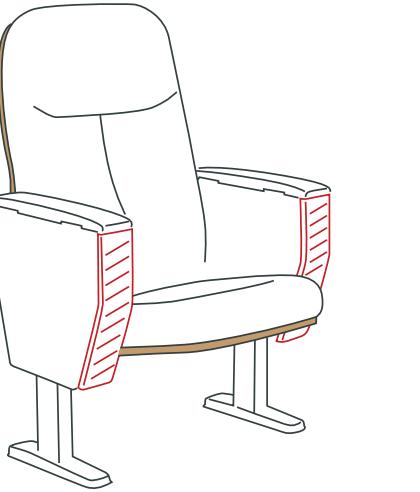

A timeless, ergonomic design featuring a sturdy base and comfortable seat, perfect for any theatrical performance.

**PY55-WP**

**The Classic Theatre Chair with Writing Pad**

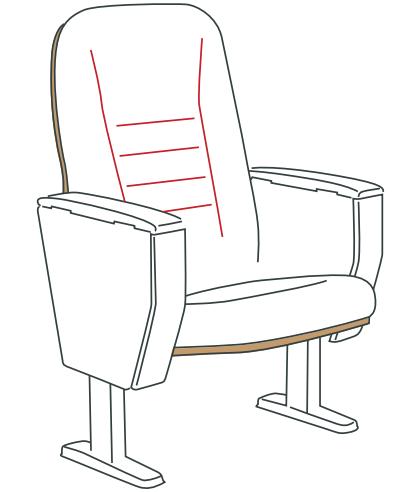

Building on the classic design, this chair includes a practical writing pad integrated into the armrest, ideal for note-taking during rehearsals or performances.

**PY55W**

**The Wood Theatre Chair**

A timeless, ergonomic design showcasing a steady wooden frame and armrest. This chair ensures comfort and support.

**PY55H**

**The H-Shape Theatre Chair**

A new and innovative design featuring a padded H-shaped backrest for added support and comfort, perfect for long performances or rehearsals.

**Armrest and leg :** Made from top quality steel after precise pressing and welding, and gone through procedures of polishing, anti-rusting, phosphing, spraying and powder coating.

# Care Instructions

## FABRICS

The colors are only indicative. The color tones may vary between dyebaths. This is not a fault and is not covered by any guarantee. It's not recommended to place any products in direct sunlight or spotlights as it may cause color changes. Heavy and sharp objects cause permanent damages on products.

Fabric. The fabrics are composed of more than one material and show a great variety. They have different cleaning label depending on the fabric composition.

Organic fabrics should be treated with solvent based cleaners. Run hand towel or stiff brush over the surface to loosen dried-on stains. Sprinkle with baking soda and let sit for 20 minutes. Vacuum using an upholstery attachment. Use the cleaner and white cloth to treat stains. Synthetic fabrics can be cleaned with water based cleaners. The surface should be vacuumed with an upholstery attachment and sprayed with the cleaner. Gently scrub the fabric in circular motion with a clean and white cloth until dry. To successfully clean fabric, it is important to determine the type of fabric and the recommended cleaning code that can be found on the law tag attached to the furniture. Generally, to clean the surface, use a soft cloth and a mild soap solution. Avoid using harsh chemicals or abrasive cleaners, as they can damage the fabric or stain it. It's also important to dry the fabric thoroughly with a soft cloth to prevent water spots. Regular cleaning and maintenance will help to preserve the appearance and comfort of the fabric.

## LEATHER

Genuine leathers may have scratches, bites or other types of marks with irregularities which are completely normal and expected. This indicates the natural habitats of the animals. It should be considered as marks of quality and authenticity.

Genuine leather is not an elastic material and it pulls on the products. This effect is more recognizable on soft surfaced products. Some leathers are very easily marked and some can be brushed in different directions.

Do not use bristles to clean the leather, remove the dust with a soft and dry cloth. Do not place in direct sunlight or spotlights as it may cause color changes. Apply leather creams every six months to keep the leather elasticity and prevent dehydration. Applying a neutral soap on the stains may give good results. Strong cleaners, detergents xylene-based solutions or acetone can cause immediate damage and deteriorate the material. Using these materials are customer's own risk.

# CERTIFICATES

**ISO 9001** is an internationally recognized standard that specifies requirements for a quality management system (QMS)

**FIRA** ensures that manufacturers and suppliers meet high standards of quality and performance in products.

**BIFMA** assuring to adhere to industry standards, promoting safety, durability, and sustainability in furniture products.

**INTERTEK** ensure products meet regulatory requirements, quality standards, and environmental impact assessments.

**GREENGUARD** verifies that products have low chemical emissions, and reducing exposure to potentially harmful pollutants.

# SUSTAINABILITY

Riadco prioritizes sustainability in all aspects of its operations through constant communication with local institutions, use of local suppliers, materials, and focusing on research with investment in eco-friendly processes. It is rooted in Riadco's core values to support people, communities, and the planet while crafting furniture that promotes optimal performance and minimizes environmental impact.
